# FREKANTCY (NIG.) ENTERPRISES

# ABOUT FREKANTCY

Frekantcy is an indigenous company duly registered under the laws of Nigeria with the aim of providing a complete range of engineering, procurement and maintenance services for the Marine/Oil & Gas, Allied Industry, construction and manufacturing companies. Our services are cost effective, efficient and safe.

We have been actively involved in the provision of various services to the oil and gas sector, private and government agencies. These services include: Electrical Installations and Repairs, Mechanical Engineering Services, Air Conditioning Installation and Repairs, Procurement and Leasing Services. We have a proven track record of performance and timely delivery.

## OUR VISION

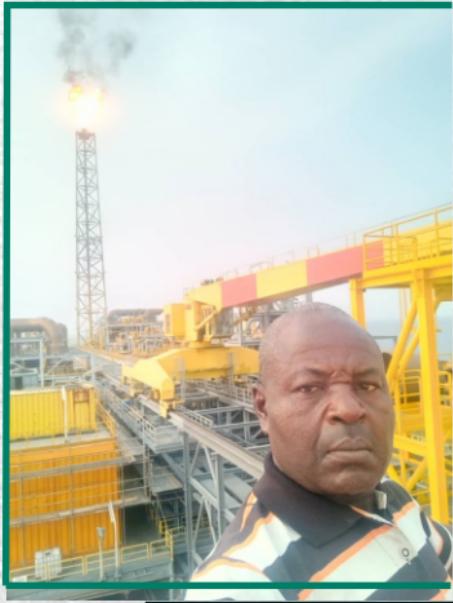

To create a change in the indigenous cooperate perspective by utilizing the power of our best and available local workforce while providing high quality services at the best value to our clients.

## SERVICES & OPERATION

Frekantcy Nigeria Enterprises carries out repair and maintenance of Industrial and Marine

- *Air-Conditioners*
- *Electrical Alternators*
- *Rewinding Electrical Motors*
- *Electrical Control Panels*
- *Industrial Generator Sets*
- *Industrial Machineries*
- *Marine Plumbing*
- *Procurement & Supplies*

## OUR SAFETY POLICY

It is our policy to conduct all her operations in a safe manner, to ensure good health of its personnel, environment and being sensitive to the needs and concerns of the communities around its area of operation.

Frekantcy Nigeria Enterprises will manage its operations in such a way as to achieve the following:

- Preserve the health, safety and security of the employees and members of the public who may be affected by its operations.
- Minimize the impact of its operation on the environment.
- Maintain sensitivity to the needs and concerns of host communities around its operational areas.
- Recognize HSE management as a line responsibility
- Maintain relationship with the host communities
- Believe that every job can be done safely
- That everybody has a joint responsibility for HSE
- Recognize that no activity shall be carried out unless considered safe

# AIR-CONDITIONING AND REFRIGERATION

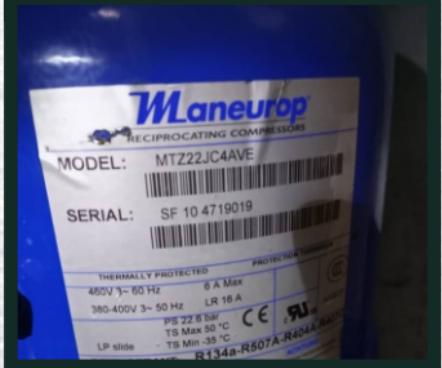

## REPAIR & MAINTENANCE OF INDUSTRIAL AND MARINE AIR-CONDITIONING

We can provide complete air conditioning services, from design and equipment selection, through to installation, after sales support and cost effective maintenance.

### AIR CONDITIONING

We can help create the right environment for any room or space. All installations are carried out to standards. We cover all aspects of air conditioning including:

- Low pressure Hot Water
- Chilled Water
- Associated Electrical Works

### REFRIGERATION ANALYSIS

We examine all refrigerant for proper purity, moisture and non-condensable levels. Our Refrigerant Analysis services include:

We perform refrigerant composition analysis, to determine if refrigerant is mixed

Analyze moisture content of refrigerant, down to 1ppm

Assist in testing for oil content, hydrocarbons, and non-condensables

# ELECTRICAL WORKS

## REPAIR & MAINTENANCE OF INDUSTRIAL AND MARINE ELECTRICAL ALTERNATORS REWINDING

A further addition to our marine and offshore capability is the experienced manpower which we provide for repair and electrical rewinding with all the necessary experience, training and equipment to carry out inspections to AVR's and other control equipment found within the alternator and generator assemblies.

## REPAIR & MAINTENANCE OF INDUSTRIAL AND MARINE ELECTRICAL ALTERNATORS REWINDING

AC and DC electric motor rewinds and repairs are at the core of our business and our team of highly skilled electro-mechanical engineers, working with fully proved technology and to exacting industry standards, ensure that your motor is returned to top working specification

# ELECTRICAL WORKS

## REPAIR & MAINTENANCE OF INDUSTRIAL AND MARINE ELECTRICAL CONTROL PANELS

The electrical control panel, or breaker box, is the heart of your electrical system. It is the home to the system's main safety devices, the circuit breakers, which protect each circuit from overloads and other hazards.

# MECHANICAL WORKS

## REPAIR & MAINTENANCE OF MARINE AND INDUSTRIAL GENERATOR SETS

Our understanding of generators enables us to excel at maintaining, repairing, repowering and testing of diverse array of generators. Maintenance including engine tune-ups, regular generator maintenance, load bank testing, preventative maintenance, top-end overhauls, major overhauls, oil and fluid changes, coolant flushing, inspections, hoses and belts, transfer switch inspections, transfer switch repairs, generator bearing service, voltage regulators, fuel tank cleaning, etc.

Repairs including all generator engines, generators, fuel pumps, injectors, cylinder heads, engine overhauls, transfer switches, voltage regulator repairs, etc.

Repowers including generator replacement, engine replacement, complete generator replacements, transfer switches, switch gear, etc.

Testing including load bank testing, load transfer, building load tests, performance testing, etc. Other generator services including system sizing and governor service.

# MECHANICAL WORKS

## REPAIR & MAINTENANCE OF INDUSTRIAL AND MARINE PLUMBING

- Tank Heater Installation & Servicing
- Pressure Problems & Banging Pipes
- Water line and complete water re-piping
- Water leaks
- Toilet Replacements
- Ap/Multi-family water saving projects
- Gas Piping

# PROCUREMENT SERVICES

Frekantcy Nigeria Enterprises has an array of capabilities in the various sectors, providing quality logistic services and supply for rigs, vessels, industries, offices, homes etc. From electrical to mechanical equipments, emergency response and salvage for all industries. Our skills and experience are constantly evolving, allowing us to provide our client with a bespoke, fully integrated solution from project planning and consultancy through to personnel and equipment supply and project execution. We are proud to present some of the items we can comfortably procure for your company both as a third party contractor and for lease and logistic services as required by the client.

Electric Motors

Electric Alternators

Control Panels

Switches

Pumps

Valves

Fire Extinguishers

Generators

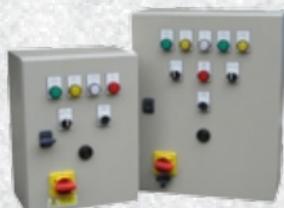

Spare Parts

Compressors

Gases

Machine Components

Wires And cables
